

**Mini Oven with circulating air****BG 1055/E**

This mini oven should not be missing in any household. Energy-saving and quick due to the optimal size of the oven chamber, the double-glazed oven door, the door seal and the stainless steel heating elements. By reason of the separately variable upper and lower heat, roasts and casseroles come out perfectly. The circulating air function ensures even baking results of cakes and pizzas and an additional defrost level makes the versatility perfect. Whatever you are preparing, it will be done easily. Pleasant ease of use is provided by the 60-minute timer with continuous setting, the stepless temperature regulation from 80 °C to 230 °C as well as by the practical interior illumination of the oven chamber. And thanks to the non-stick coating, this attractive appliance is also very easy to clean.

**features**
